Biochemistry Cumulative Exam

1) Draw the linear structures (Fisher projections) of D-glucose and D-fructose, individually. (30 points)

2) Draw the ring structures (Hawoth projections) of α-D-glucopyranose and β-D-fructofuranose. (30 points)

3) Draw the ring structure of disaccharides α-D-glucopyranosyl-(1→2)-β-D-fructofuranose (30 points). What the common name for this disaccharides? (10 points)
